1. Claim 11 is allowable and has been renumbered as claim 1.

2. The following is an Examiner's Statement of Reasons for Allowance:

None of the prior art of record describe or reasonably suggest a procalcitonin polypeptide of amino acid sequence set forth in SEQ ID NO:3 (procalcitonin 3-116).

The other reference by Proost et al. (1998) cited by Applicants but not relied upon by the Examiner establishes the state of the prior art.

Proost et al teaches truncated RANTES (3-68) in which a dipeptide is removed from the NH2-terminal of RANTES but there is no motivation to apply this reference to procalcitonin (3-116) which is liberated in sempsis as disclosed in the instant application.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
